countries*

## ***Season's greetings***

*Ladies and Gentlemen Journalists,*

*There cannot exist social peace without Justice, an imperative ideal to strive for. May your bosses – the DE WECK, KÖPPEL, LEBRUMENT, RINGIER, SOMM, SUPINO, WANNER become aware of it. They are reading me in copy, so there is no need for them to use the services of informers.*

*A country, where the Executive, the Legislative, the so called Justice and the 4<sup>th</sup> power are tolerating a corrupt and fraudulent federal «Judge», having acted during years as the President of the penal Cassation court of the Federal Court without having him pursued ex officio for his crimes is clearly demonstrating where censorship and the Omertà Helvetica which is resulting is leading us. *Yes, Switzerland is living a period of unprecedented economic wealth. But what is the price for it? Our country became the world's platform for laundering dirty money at the cost of third countries. That's the cause of the inundation of capital into our country, tolerated by the global Oligarch players. Our local kinglets are thus in a position to offer to the brave people games (Sports) and bread (comfortable salaries), as did ancient Rome. However, in Switzerland, 1 out of 20 inhabitants is trapped during a lifetime by a serious judiciary dysfunction – trend increasing. Each break down of a civilization has always been preceded by the decline of mores and of the institutions.*

*Answering the rhetorical question – What can we do in a badly rotating world? – the editor in chief of the 24 Heures did reply in his Editorial of December 24-25-26, 2016: « Keep our trust in the institutions which are granting the social cohesion as well as the individual development ».*

*I did hear the priests of the Freemason Lodge Fraternité in Yverdon-les-Bains preaching exactly that same misinforming message during their public meeting on November 4, 2016. One must conclude that this editor in chief who is very well informed about the amplitude of corruption in the Canton of Vaud is himself a member of the hidden Oligarchs.*

*This hidden Oligarchy is the plague of our times. Our country is indeed governed very, very badly. A wakeup has become inevitable. It is understandable that you journalists, mostly employees, you ought to care in the first place for yourself and your families. Afraid to lose your jobs, you are applying self-censorship. But think about the consequences! You did enslave yourselves, and the whole Swiss Nation with you.*

***Herewith I launch to you the challenge to make in passive resistance against censorship. For our country, Switzerland, it is hoped for that a spirit of insurrection will overcome your ranks during the coming year. Let's abolish the repression of the Freedom of expression!***

*Serenity, transparency, courage and trust for 2017!*
