Visitation rights with 97-year-old Rita ROSENSTIEL
Request for a decision

Dear Mrs. RICKLI,

Mrs. ROSENSTIEL is a tragic victim of the adult and child protection authority of the Canton of Vaud: www.worldcorruption.info/eng/rosenstiel.htm

In case of censorship access via a Proxy, e.g. <https://kproxy.com/>

In October 2019 we therefore transferred her to the Hugo Mendel Home in safety. Zurich is her home town.

Mrs ROSENSTIEL has drawn up a notarised mandate in case of incapacity which is registered in the Infostar system. See enclosure. In it she entrusts us, Roxana VOLANSCHI and Gerhard ULRICH, to act as her guardians. We visit her very often and regularly at the Hugo Mendel Home.

Now we learn from the independent media that the Health Department of the Canton of Zurich is drastically worsening visiting rights in old people's homes. Among other things, visitors are to be forced to show a negative test: <https://corona-transition.org/nach-impfungen-in-zurcher-altersheimen-gesundheitsdirektion-verschaft>

The authors of this « ingenious » regulation surely did not think out of ignorance that they would drive the elderly even further into loneliness. Because even sleep

sheep who are willing to be tested will pay fewer visits to old people's homes because of this new obstacle.

Unfortunately, this scaremongering is coming from the Federal Council. This antigenic self-test is worth even less than the so-called Drosten PCR test, of which Professor Dr. Ulrike KÄMMERER, virologist and immunologist at the University of Würzburg, among others, writes: «The PCR test only shows the nucleic acids, not the virus, it cannot detect an infection.»

The unsuitability of the test was already determined by an international panel of 22 scientists at the beginning of this year:

<https://nichtohneuns-freiburg.de/20-gegen-drosten-neues-kapitel-im-retraction-prozess/>

The Portuguese Supreme Court has also confirmed the unreliability of the test:
www.theportugalnews.com/news/2020-11-27/covid-pcr-test-reliability-doubtful-portugal-judges/56962

The Drosten test has never undergone proper government testing and was simply recommended to the world under pressure from the pharmaceutical lobby via WHO. It is sad that governments are manipulated by such charlatans in order to fatten up the pharmaceutical industry - in this case Laroche. Moreover, the so-called incidence value can be inflated arbitrarily with unnecessary great number of testing, providing false results and thus ostensibly «justify» the plandemic measures. The whole thing serves only to drive the economy to the wall.

Our unjust rulers are not concerned about our health when they bully us with lockdowns and masquerade constraint. The welfare of the people no longer counts at all. They are at war against their own nations.

We ask you to consult the publications of Dr. [Wolfgang WODARG](#), Prof. [Sucharit BHAKDI](#), [Christian PERRONNE](#) etc. on the subject, and not to simply rely on the propaganda scribblers.

We, Roxana VOLANSCHI and Gerhard ULRICH, strictly refuse to go along with the evil circus of tests. We are aware that our protégé could perish mentally and physically from the threat of isolation caused by the arbitrariness of the authorities. As we know, the tests are not harmless but invasive. What would it help our protégé if we were to fall by the wayside or become immobilised due to undesirable side effects and unjustified quarantine as a result of such tests?

The undersigned to the right fell ill with influenza in December 2021 and, for the sake of peace, bowed to the dictate of his family and had himself tested. For 3 months afterwards, he snorted spiked blood. So he knows what he is talking about. Since this test was positiv, he is reputed to be immune to Corona.

For the sake of completeness, it should be mentioned that Ms ROSENSTIEL also tested positive in April 2020 and was placed in quarantine, i.e. isolation detention. It was a nightmare for her. She went down in the statistics as a «corona sick person without symptoms ». Any serious scientist such as Mike YEADON can confirm our common sense interpretation that there can be no healthy contagious sick people: www.francesoir.fr/videos-les-debriefings/mike-yeadon-debriefing The fairy tale about healthy virus-slinging people is therefore nonsense. Tests are therefore not only pointless but insane. The correct explanation is that Rita ROSENSTIEL, who has never been vaccinated in her long life, is protected by an excellent immune system.

We request to be allowed to continue to visit Ms. ROSENSTIEL without this absurd test. We demand that you provide a motivated and contestable decision in this regard. In particular, it should be proven that there would be a national epidemic emergency in the first place. The Weimar District Court has refuted this in a historic decision:

www.focus.de/politik/thueringer-urteil-bringt-regierung-in-erklaerungsnot-corona-hammer-gericht-nennt-lockdown-katastrophale-politische-fehlentscheidung_id_12899284.html

We request to be authorized to realize our visiting rights without undergoing such tests until the notification of the your forthcoming decision.

Awaiting your decision we greet you respectfully

PS on the seriousness of the situation:

The occult genocide with the experimental gene code injections

The Corona Committee D <https://corona-ausschuss.de/> estimates that 10-20% of nursing home residents in Germany have been injected to death within the last 3 months. Here in Switzerland we could learn little about this from the media. But there, too, it stinks to high heaven:

<https://corona-transition.org/263-schwerwiegende-nebenwirkungen-nach-impfung-dreizehnmal-mehr-als-im-ganzen>

According to our observations, the Hugo Mendel Home in Zurich, for example, housed 28 residents at the beginning of the year. After the first round of vaccinations, 25 elderly people remained, and on April 15, 2021, less than a week after the second round of injections, 23 pensioners were still left. However, we were unable to find out from the staff whether the 5 who had died had actually been vaccinated. Obviously, ironclad secrecy has been imposed.

Throughout Europe, the side effects and deaths are exploding even according to the official EMA statistics:

<https://tkp.at/2021/04/05/nebenwirkungen-und-todesfaelle-durch-impfungen-nehmen-rasant-zu/>

And the long-term effects are not even known yet. The Irish professor of molecular biology and immunology, Dolores CAHILL has knowledge of a decade of experience with mRNA gene code animal experiments. She fears that the human guinea pigs could die in the following 2 to 3 years:

www.francesoir.fr/opinions-entretiens/video-debriefing-dolores-cahill

Dr Carrie MADEJ, USA, as well sees black:

<https://www.bitchute.com/video/pyczBzMfOnuo/>

Our self-proclaimed National Swiss Covid-19 scientific Task Force does not say a word about this human catastrophe and instead is excelling with false prophecies and scaremongering:

And all this because of a small flu that can be effectively treated with cheap drugs such as hydroxychloroquine and ivermectine, etc., but which is of course hidden from the people:

www.wochenblick.at/wissenschaftler-zerstoert-die-corona-maerchen-der-regierungen-und-eliten/

Instead, unjust rulers and their propaganda media are pushing genocide with pharmaceutical injections. Their effectiveness against the Covid-19 virus is questioned by Professor Peter DOSHI. Hardly any benefit - only harm:
