Role assumed in the affair LÉGERET

CHATTON has surveyed the operations of inquiry from A til Z. He excluded rapidly the hypothesis of an accident, i.e. a fall down the stair cases of the two eighy years old Ladies Ruth LÉGERET and Marina STUDER. Less than 24 hours after the discovery of the two bodies on January 4, 2006, he has ordered to the investigators of the criminal police to pursue one single track only: thatone of the triple murder committed by François LÉGERET. In addition, this man would have assassinated his sister, Marie-José, although she had disapeared without leaving any traces.

It is to be presumed that CHATTON was aware of the cheatings performed by the investigators of the criminal police VD on the back of François LÉGERET (see the book of Jacques SECRETAN: *L'affaire Légeret – un assassin imaginaire. Editions Mon Village, 2016*). It is likely that he even has encouraged them to do so.

CHATTON had his victim interrogated day and night until complet exhaustion. In a given moment, he caught this defensless man by announcing that his ADN has been detected on the interior of the collar of the nightdress of his mother. François LÉGERET had been quite often present in the house of his mother, and ADN traces cannot bee dated. This means that this argument served only to destabilize the interrogated, to wrest out of him finally a half confess, which could be exploited henceforward mercilessly as a «change of version». The methods to obtain it were cynical and brutal. Obviously, CHATTON has carefully avoided to record these interrogations acustically or by a video.

He has arranged the dream of the wife of Jean-Marc LÉGERET, verbalized into the minutes of January 11, 2006 into the scenario of the crime, in the absence of any formal evidence.

The defender of François LÉGERET, the lawyer Alain DUBUIS has protested against the practice of the double file observed in this procedure in his application

to the supreme Federal Court of February 13, 2009. This trick consists in maintaining two parallel files for the same case, one accessible to the accused, and another more voluminous one exploited exclusively by the investigators. This is an absolute illegal and highly toxic practice. It is surprising that the Federal Court, having been informed about this shrewdness did not react.

Profile

CHATTON did start his career as a cop in Pully VD. Thereafter he was promoted to the position as an investigating Judge of Vaud. In early 2006 he was first investigating Judge of the East of Vaud, and automatically promoted First Prosecutor of the East of Vaud after the uniformisation of the penal procedures in Switzerland, early 2011.

CHATTON did show up very early in our database and we know 7 of his victims.

Examples:

CHATTON has covered the abuse of the son of Simone BÉNICHOU, living in France, having been abducted by his father (one of the big fortunes of France), settled in Pully.

Same dysfunctioning in the case of the son of Norbert-Daniel GUILLOD, Alain. When the father did lodge a penal complaint because his son was in danger of life, the subordinate of CHATTON, the prosecutor Jérôme GASSER had undertaken stricly nothing during two years. Every call of Mister GUILLOD's Lawyer was answered by the Prosecutors' Office by: «The Prosecuto GASSER is ill», «The Prosecutor is moving», «The Prosecutor is on holidays», and finally the Prosecutor GASSER has left the Prosecutors' Office leaving the complaint

untreated. When Mr. GUILLOD requested from the First Prosecutor of the East of Vaud, Jean-Pierre CHATTON to obtain the address of residence of his former subordinate, in order to ask from this man an explanation, CHATTON replied to him: «The Prosecutors' Office does not transmit this kind of private information.» These government clerks refuse to assume any responsibility!

CHATTON has as well contributed to cover up the heavy mistakes of the plastic surgeon **MAILLARD** at the costs of A.K.
