The Job career of COLETTA Stéphane

Very little is known about his past. He is probably a Secondo (descendant of immigrants). In spring 2016 he succeeded to **Yves NICOLET**, promoted Federal Prosecutore as a reward for his cheatings committed in favour of the Vaudois judiciary Mafia.

The History of the Internet censorship by the Vaudois

Early 2008, **NICOLET** endeavoured to reinforce the censorship of what he called «Cybercriminality». In reality, it was illegal censorship. Any restriction of fundamental rights as the right of freedom of expression is, does necessitate a legal basis. Serious restrictions need to be backed up by a law. However, no Court whatsoever has ever ordered the censorship of our Web Sites. In addition, the political discussion cannot be suffocated, and **our denunciations of the judiciary disfunctioning is without any doubt a political issue in the public interest.**

This censorship, called chastely «blockade» or «confiscation» was implemented by secrete procedures without parties (Cabinet Justice) See:

www.worldcorruption.info/index_htm_files/gu_nicolet-e.pdf

One gets to know, that the judiciary apparatus benefitted from the services of the querulous and frauding Lawyer **Michel TINGUELY**, serving as their tool. In turn, he got granted the privilege of total impunity for frauding, lying, uttering death threats, to present forged evidences, to commit right abuses, to lodge slandering an late complaints, to file complaints for impossible violations (imagined unfair competition), to have the courts deviating from usual jurisprudence practice, and last but not least to implement an anticonstitutional censorship in favor of the critisized Vaudois/Swiss Magistrates. See :

www.worldcorruption.info/index_htm_files/gu_2018-06-01_guignard-e.pdf

During May 2014, 9 judiciary decisions concerning this censorship implemented by **NICOLET** were transfered by error into the procedure file PE011.011617, accessible to the parties, hidden up to that date in an inaccessible parallel file (a highly poisonous and prohibited practice, but quite often used, not only by the Vaudois, but as well by the Federal Prosecutor's Office).

One is discovering the following Magistrates who had cooperated for covering the illegal censorship by falsifying the DNS (Domaine Name System), as practized by Northern Korea, always executed by secret decisions:

- the Vaudois Attorney General **Eric COTTIER**
- the 7 cantonal «Judges» **Pierre-Henri WINZAP**, Jean-Jacques ROGNON, **Jean-François MEYLAN**, François MEYLAN, **Joël KRIEGER**, **Bertrand SAUTEREL** and Anne RÖTHENBACHER
- the 3 Federal «Judges» Michel FÉRAUD, **Heinz AEMISEGGER** and **Bertrand REEB**

This is demonstrating that the Vaudois / Swiss judiciary Mafia gave an extremely high priority to this censorship, benefitting directly for violating the law in this way. Check it by consulting their evaluations available on Internet, by clicking on the names printed in blue (activated links). They showed no compunction to act as Judge and party.

The role played by the Prosecutor COLETTA in this enterprise for repressing the right of freedom of expression

Succeeding the «Prosecutor» **NICOLET**, it goes without saying that COLETTA continued to cover up the cheatings of **TINGUELY**, documented in the letter of December 10, 2012, addressed to the Prosecutor = accomplice. This letter is attached at the end of the evaluation of **NICOLET**:

www.worldcorruption.info/index_htm_files/gu_nicolet-e.pdf

As his predecessor, COLETTA abused as well of his authority for having the computer of the dissident Gerhard ULRICH confiscated, on simple demand of **TINGUELY**, without ever finding culpatory charges. Just pure quibbling.

One has to presume that it was COLETTA to have committed the blunder to transfer said secrete decisions into the file PE011.011617, when he took over in spring 2016.

In the meantime, the judiciary mob had acquired the certainty that the politicians covered them, as well for what was concerning the illegal censorship of the Web, and the Mass Media were disciplined to keep quiet. At that point the Vaudois Prosecutor's Office decided to censor the Internet henceforward by decisions communicated to the parties, all be it still in total illegality,

COLETTA took action. His first order for censoring is dated October 5, 2016. See:

www.worldcorruption.info/index_htm_files/gu_2016-10-11_cottier_censure-e.pdf

This censorship triggered off an complaint against Switzerland for violation of the Universal Declaration of Human Rights of 1948 (article 19 – the right of freedom of expression) :

There remained another problem to be settled for enforcing the repression of the right of freedom of expression. Actually, a few out of the many complaints of the querulous **TINGUELY** had suffered a delay to be «investigated», with the risk of falling into prescription. In deed, the absolute prescription for attempts to the honor is reached after 4 years. For circumnavigating this problem of prescription, **TINGUELY** commenced to denounce his victim for constraint and unfair competition (having a much longer lasting prescription). Of course, neither of these violations had been committed. The invention of his latest trick for repressing the freedom of expression was naturally straight away implemented by COLETTA:

COLETTA is a hangman apprentice, eager to make career, even at the cost to violate law for obtaining the favours of his corrupted superiors. His future promotion is granted. He is not fighting economic criminality, but supporting it.
